To ensure you can shop with confidence and get the lowest price, we are continually researching competitors prices every hour. Our products are automatically updated through our advanced Active Pricing software, letting you know the price you pay - is one of the best available online! Cymax works hard to ensure you the the service and support you deserve. With a Better Business Bureau rating of A+ on over 2 Million orders since 2004, we our proud to stand behind our product selection. I love the color and the looks of this wall shelf. It has a nice way of displaying all of my sewing stuff and yet still allowing for easy access. The price was very reasonable, as well. I just ordered another one to add to my collection. I needed a wall mounted bookshelf for my sewing room. I was able to find this one on sale, and it looks great. Love the black finish, it blends in perfectly with the walls. Very easy to assemble. Q: Finding a 2-dimensional subspace in a 3-dimensional vector space Let V be a 3-dimensional vector space over the reals. What is the dimension of the set of 2-dimensional subspaces of V ? I think that the answer is 6. (1) By a theorem in the book on this subject it is clear that the set of S -dimensional subspaces has dimension $S6S$ but I am unable to see how the dimension of the set of S 25-dimensional subspaces can be deduced. Could anyone help me? (2) How could the dimension of the set of S 25-dimensional sub 82157476af
